Teradyne Tops VLSIresearch Customer Satisfaction Survey for Seventh Consecutive Year

May 16, 2019 10:30 AM

NORTH READING, Mass., May 16, 2019 (GLOBE NEWSWIRE) -- Teradyne, Inc. (NASDAQ:TER), a leading supplier of automated test solutions, was named "THE BEST" of all test equipment companies for the seventh year in a row by customers in the VLSIresearch annual survey. VLSI surveys the customers of companies that provide hardware, software and services to the semiconductor industry. Teradyne placed first in both "THE BEST Suppliers of Test Equipment" and "The 10 BEST Large Suppliers of Chip Making Equipment" categories.

Teradyne has been named "THE BEST" of all test equipment companies for the seventh year in a row by customers in the VLSIresearch annual survey.

Greg Smith, President of the Semiconductor Test Division at Teradyne, commented: "At Teradyne, we strive to be a dependable partner to our customers. Getting critical feedback from our customers is very important to help us continually improve. The VLSIresearch Customer Satisfaction Survey is a key part of that process. It is fulfilling to know that our customers acknowledge our commitment to their success and we will always be committed to earning that trust, every day."

Since 1988, the VLSIresearch annual Customer Satisfaction Survey has been the semiconductor industry's primary method for ranking and rating the suppliers of semiconductor equipment and subsystems. The 10 BEST and THE BEST awards are considered the industry's most prestigious recognitions.

"We are delighted to extend our congratulations to Teradyne for placing first in our customer satisfaction ranking for the seventh consecutive year, leading the semiconductor industry as THE BEST of all test equipment companies. It is clear that Teradyne's unwavering commitment to

providing superior products and services has not gone unnoticed by its customers. Teradyne's dedication to innovation and remaining on the cutting edge of the ATE industry is why customers around the globe have once again recognized Teradyne as the leader in customer satisfaction," said G. Dan Hutcheson, CEO of VLSIresearch.

About Teradyne

Teradyne (NASDAQ:TER) brings high-quality innovations such as smart devices, life-saving medical equipment and data storage systems to market, faster. Its advanced test solutions for semiconductors, electronic systems, wireless devices and more ensure that products perform as they were designed. Its Industrial Automation offerings include collaborative and mobile robots that help manufacturers of all sizes improve productivity and lower costs. In 2018, Teradyne had revenue of \$2.1 billion and today employs 5,000 people worldwide. For more information, visit teradyne.com.
