

Teradyne Named Best Automatic Test Equipment Supplier for 2018 by Dialog Semiconductor

Oct 31, 2018 9:00 AM

NORTH READING, Mass., Oct. 31, 2018 (GLOBE NEWSWIRE) -- Teradyne, Inc. (NYSE:TER), a leading supplier of automated test solutions, announced that it has received the Best Automatic Test Equipment (ATE) Supplier Award for 2018 from [Dialog Semiconductor plc](#) (XETRA:DLG), a fabless provider of highly integrated power management, AC/DC power conversion, charging, and Bluetooth low energy technology.

Dialog Semiconductor is a longtime user of the [Teradyne UltraFLEX Test System](#), Teradyne's flagship ATE system that is optimized for high-performance digital device and system on chip (SoC) testing. UltraFLEX testers have the speed, coverage, power and precision required to test complex SoCs with superior economics and fast time to market.

"We are honored to present Teradyne with this award in recognition of its superior performance as strategic partner and its exceptional customer service," said Moshe Reuven, Dialog Semiconductor Vice President, Global Operations and Quality Assurance. "Teradyne is a very collaborative partner with innovative test technology which are key reasons that it has been a key contributor to exceeding our quality testing and time-to-market goals."

"Dialog Semiconductor has been a long-term UltraFLEX customer and is a strategic partner for Teradyne in the field of power management semiconductor test," said Greg Smith, President of Teradyne Semiconductor Test Division. "This is a meaningful reward both because of our long-term relationship with Dialog and also because it is a public acknowledgment that we are meeting our goal to deliver industry-leading quality service to our customers."

About Teradyne

[Teradyne](#) (NYSE:TER) is a leading supplier of automation equipment for test and industrial applications. Teradyne Automatic Test Equipment (ATE) is used to test semiconductors, wireless products, data storage and complex electronic systems, which serve consumer, communications, industrial and government customers. Our Industrial Automation products include collaborative robots used by global manufacturing and light industrial customers to improve quality and increase manufacturing efficiency. In 2017, Teradyne had revenue of \$2.14 billion and currently employs approximately 4,800 people worldwide. For more information, visit www.teradyne.com. Teradyne® is a registered trademark of Teradyne, Inc. in the U.S. and other countries.

About Dialog Semiconductor

Dialog Semiconductor is a leading provider of integrated circuits (ICs) that power mobile devices and the Internet of Things. Dialog solutions are integral to some of today's leading mobile devices and the enabling element for increasing performance and productivity on the go. From making smartphones more power efficient and shortening charging times, enabling home appliances to be controlled from anywhere, to connecting the next generation of wearable devices, Dialog's decades of experience and world-class innovation help manufacturers get to what's next.

Dialog operates a fabless business model and is a socially responsible employer pursuing many programs to benefit the employees, community, other stakeholders and the environment it operates in. Dialog Semiconductor plc is headquartered in London with a global sales, R&D and marketing organization. In 2017, it had approximately \$1.35 billion in revenue and was one of the fastest growing European public semiconductor companies. It currently has approximately 2,050 employees worldwide. The company is listed on the Frankfurt (FWB: DLG) stock exchange (Regulated Market, Prime Standard, ISIN GB0059822006) and is a member of the German TecDax index.
