Teradyne, Inc. (NASDAQ:TER) (the “Company”) has outstanding 1.25% Convertible Senior Subordinated Notes due 2023 (the “2023 Notes”). The 2023 Notes are convertible, at the option of the holders, at any time prior to the close of business on the business day immediately preceding December 15, 2023, into shares of the Company’s common stock, par value $0.125 per share (the “Common Stock”). The terms of the 2023 Notes include antidilutive protections that provide for an increase in the number of shares of Common Stock issued by the Company upon conversion of the 2023 Notes in the event of quarterly cash dividends on the Common Stock. This increase in the conversion rate on the 2023 Notes shall occur on the ex-dividend date for quarterly cash dividends paid on the Common Stock.

Section 6045B of the United States (“U.S.”) Internal Revenue Code (the “Code”) and the Treasury Regulations promulgated thereunder provide that, if a company pays a cash dividend with respect to its stock that results in a conversion rate adjustment on a convertible debt instrument that is treated as a deemed distribution under Section 305(b)(2) and (c) of the Code, an information return on Form 8937, Report of Organizational Actions Affecting Stock Basis of Securities, must be filed with the Internal Revenue Service or, in lieu of filing, posted to the company’s public website.

The information contained in the attached Form 8937 and this Appendix A is intended to satisfy the public reporting requirements under Section 6045A of the Code and is intended to provide only a general summary of certain U.S. federal income tax consequences of the conversion rate adjustment. Such information is not intended to be a complete analysis or description of all potential deferral or other tax consequences of the conversion rate adjustment. You should consult your own tax advisor to determine the particular federal, state, local, or foreign income, reporting, or other tax consequences of the conversion rate adjustment applicable to you.

Line 14 – Description of the Organizational Action
On August 21, 2023, the Company declared a quarterly cash dividend of $0.11 per share with respect to its Common Stock payable on September 25, 2023 to shareholders of record as of the close of business on September 1, 2023. The August 31, 2023 conversion rate increase results in a deemed dividend to holders of the 2023 Notes under Section 305(c) of the Code effective August 31, 2023.

Line 15 – Description of the Quantitative Effect of the Organizational Action
Effective on August 31, 2023, the conversion rate on the 2023 Notes increases from 31.8206 shares of Common Stock per $1,000 principal (the conversion rate as of May 23, 2023) to 31.8358 shares of Common Stock per $1,000 principal of 2023 Notes held. The section 305 (c) deemed dividend to holders of the 2023 Notes that resulted from the conversion rate change increased the basis of the 2023 Notes by $1.6396 per $1,000 principal of 2023 Notes held.

Line 16 – Description of Calculation of the Change
The calculation of the adjusted conversion rate per $1,000 principal amount of 2023 Notes held is set forth below. The “Market Value” under the indenture for the 2023 Notes is the average closing price for the trading days occurring after, and not including the August 21, 2023 declaration date, and prior to, but not including, the ex-dividend date (such ex-dividend date was August 31, 2023).
Adj. Conversion Rate = PCR (31.8206) x \( \text{MV} \times ($104.75) - \text{DTA} \times ($0.06) \) = 31.8358
\[ \text{MV} \times ($104.75) - D \times ($0.11) \]

Basis Adjustment = SP ($107.87) * Conversion Adj. \( [(31.8358) - (31.8206)] = $1.6396 \) per $1,000 of principal amount of the 2023 Notes

PCR = Prior Conversion Ratio (calculated as of May 23, 2023)
MV = Market Value of 1 Common Share (As Calculated per 2023 Notes Indenture)
DTA = Dividend Threshold Amount
D = Dividend Amount (September 1, 2023 record date)
SP = Stock Price (August 31, 2023 ex-dividend date)
